▼ Experience

2022 –

Albert Heijn medewerker • vakkenvuller • Jumbo

▼ Education

ROC Mondrian Software Developer, Brasserskade 1, Delft •

- During my education in software development, I worked on several projects. Some of the projects I have worked on are a computer parts review website PHP/MVC module/MySQL, a sushi restaurant website where you can order online I did that with PHP and a database, the higher or lower game with HTML/JS/CSS, Ticktacktoe game with HTML/JS/CSS, Escape Room HTML/JS/CSS, and my own article webpage Bootstrap/JS/CSS and I have way more projects on my webpage.

Maris Statenkwartier Media, design and ICT, Antonie Duyckstraat 126, Den Haag •

- As a student at Maris Statenkwartier, where I was fully involved in the exciting fields of media, design, and ICT, I gained an in-depth insight into persuasive writing tactics, communication strategies and the effects of digital media on society. I have followed Adobe closely throughout my academic career, leveraging Adobe's capabilities to bring my creative creations to life. My studies also included developing an advanced sense of style and understanding the basics of user interface design.

▼ About me

My name is Christian Lemmen, and I am 18 years old. I don't really have any hobbies, but occasionally, in my spare time, I play games, watch movies, and meet up with friends and family. My strong qualities are that I know a lot about computers and things in IT.
